Charter Township of Shelby  
52700 Van Dyke Ave.  
Shelby Township, MI 48316

February 16<sup>th</sup> 2017

- Question #1: **Will you accept 3rd Party Optics that are certified to work with the RFP listed?**  
Answer #1: Yes, third-party optics will be accepted, as long as they come with a limited lifetime warranty that is the same as, or exceeds, the limited lifetime warranty of the hardware in which they will be installed.
- Question #2: **Do you currently use Manage Engine and if so do you have enough device licenses to cover the new hardware?**  
Answer #2: No, we do not currently use Manage Engine.
- Question #3: **If you are currently running Manage Engine can we assume that you just need us to configure the switches to be monitored in that application (SNMP, SSH, logging, Netflow, etc.)**  
Answer #3: We do not currently use Manage Engine.
- Question #4: **If this is a new application to be provided, Will you provide the space/compute in your Vmware environment to run this application?**  
Answer#4: We will provide the winning bidder with a virtual machine.
- Question #5: **If so do you need us to provide the host OS (if required) for the application?**  
Answer #5: No, a host OS will be provided.
- Question #6: **Can we assume that any electrical work required to run circuits the new UPS units will be provided by the Township?**  
Answer #6: Yes, any electrical work required will be performed by the Township, or Township contractors.
- Question #7: **What is the required subscription term for the required Firepower Services (Control, Protection, AMP) Should we assume 5 years? In not please tell us your term length.**  
Answer #7: The required term for the subscription is five years.
