Check Out the Latest Addition to Mae Stecker Park
An invitation from Joe Youngblood, Parks, Recreation and Maintenance Director

Just when we thought Mae Stecker Park couldn't get any nicer, four months ago we were contacted by members of the Robby Atherton Foundation. They were looking to do a project in memory of Robby Atherton, former Shelby Township resident and Eisenhower High School star basketball player. The project talks started around Robby’s love for basketball and the many endless hours he and his friends played basketball at Mae Stecker Park during their high school and college years. The foundation chose to focus on basketball courts at Mae Stecker Park.

As talks progressed we came up with a vision of what the courts would look like, and after some planning and research, we realized we were going to have state of the art, and most likely some of the nicest outdoor public basketball courts in the State of Michigan. Thanks to the Robby Atherton foundation Shelby Township has first class basketball courts that have already become an area favorite for basketball players of all ages.

On behalf of the Shelby Township Parks, Recreation and Maintenance Department I would like to thank the Robby Atherton Foundation for their generous donation of $60,000 that funded this project which will give others countless hours of enjoyment as well as the opportunity to create their own memories with family and friends.

Mae Stecker Park is located on the south side of 24 Mile Road, 1/4 mile east of Van Dyke Avenue.

Shelby Township's Parks and Recreation Department's Special Recreation Program

Shelby Township’s Special Recreation Program allows teens and adults who are developmentally and/or physically impaired to gain confidence and a feeling of independence by meeting new friends and sharing fun social activities. Membership is free and the group continues to grow with over 120 registered members ranging in age from 12 through their late 40’s.

Monthly activities include dinner outings, dances, sports nights, pizza and movie nights, holiday parties, craft days, and bingo, as well as seasonal bowling, basketball and softball leagues. Nominal fees may be required and will vary for each activity.

Please call the Parks and Recreation Department at 586-731-0300 to register and to be placed on the mailing list to receive the calendar of events (mailed three times a year). If you have any questions please phone Joe Youngblood or e-mail him at jyoungblood@shelbytwp.org.

A Few Important Words About Spiders

Spider – the very word gives some folks the creeps. Maybe it’s all those legs, a fear of sudden moves, or rumors of dangerous spiders. We hope that a little factual information about spiders might make people a bit more comfortable. Many visitors to Burgess-Shadbush, after learning a few “truths” about spiders and having questions answered are more comfortable with the spiders around them.

Michigan is home to about 600 kinds of spiders and all but two use venom to subdue, immobilize, and predigest their prey. Oddly, while all but two kinds of Michigan spiders have venom, only one has venom known to be dangerous to people. The Northern Black Widow is our only native dangerous species and is an uncommon Michigan spider that ranges from Michigan all the way to northern Florida. Finding one is highly unusual, at least over much of the Lower Peninsula where it has occasionally been collected and recorded.

People sometimes fear spiders that aren’t normally here like the Brown Recluse. The range of the Brown Recluse is well south of Michigan. This spider has not even been listed for Ohio. Brown Recluse spiders are not likely to survive outdoors during a Michigan winter, but could survive indoors. This normally shy spider can occasionally be found in shipments of items coming from its native range. We have identified one Brown Recluse from this area which was accidentally shipped in with commercial products. Brown Recluse spiders have a rather distinctive eye pattern with 6 eyes arranged in 3 closely set pairs.

For every spider that can be a problem, there are dozens or even hundreds that are helpful, interesting, and beneficial. Believe it or not, some spiders are beautiful. Check out some close-up photos of jumping spiders taken by Dr. Alan Charnley. His amazing nature photography will be presented on Thursday, September 6, at 7:00pm. Dr. Charnley is visiting the Shelby Camera Club which meets here on the first Thursday of each month. Also, be sure to catch our program called Spidermania on Saturday, October 27. It is part of our fall program series which is detailed in this newsletter. Maybe after finding out about spiders, dispelling some of the myths about them, and seeing some of their beauty, you will find a way to be a bit more appreciative of these common animals.

News and Events and Sightings at Burgess-Shadbush Nature Center

This fall we are offering several opportunities to learn about or enjoy the beauty of spiders. Be sure to check out the special guest for Camera Club, Dr. Alan Charnley, on Thursday, Sept. 6, and the Spidermania program on Saturday, October 27 from 1:00 to 4:00pm. Also be sure to set aside September 15 and 16 for our Fall Festival. Along with our Night the Animals Talked and Haunted Halloween it makes for a very full fall program offering.

The Heronry at Holland Ponds is very active again this year with herons at every nest. Many nests have large young at the time of this writing. There is an active Red-tailed Hawk nest below the building and the adults are conspicuous with their hunting flights and calls as they approach the nest. An adult Bald Eagle was reported over the park in late April. A confirmed sighting of an adult skink (Blue-tailed also known as the Five-lined Skink) was recently made near the center building.

Burgess-Shadbush welcomes Robert Quaine who has recently transferred to the nature center. Robert will be working on cleaning and maintenance for us and is a welcome addition to our staff.

Candles, Conventional Ovens and Print Books

On first thought you might not consider any similarities between candles, ovens and books. One needs fire to work effectively, and the other would be destroyed by fire. Even so, I submit another line of thinking that puts them in another category along with cooking. That category is “things everyone predicted to be replaced by modern technology.”

When the light bulb was invented, folks generally considered it to be the beginning of the end for candles. Why would you use a candle when you could use modern light? It might interest people to know that approximately two billion dollars worth of candles are purchased each year in the United States alone. They are used during birthdays, weddings, romantic evenings and power outages. Candles extinct...?...think again.

The invention of the microwave oven brought with it the thinking that it would soon replace all conventional ovens. Who would cook food for longer when you could zap quicker with a microwave? People that want good tasting quality food that’s who. How many Thanksgiving feasts have you enjoyed where all the food was exclusively prepared by microwaves? I would venture a guess there aren’t many. Conventional ovens replaced... not in my lifetime.

Now that we are in the information age and reading content can be found in abundance in digital format, people once again are declaring the imminent doom of printed material. Yes, eContent is here and it can be quite convenient. However, when considering quality, and that warm and cozy feeling that print material brings, I can assure you that print books will be around for a long time.

So, the next time your power goes out and your reading by candle light while you wait for your gas stove to finish baking your dinner, remember, all predictions don’t come true.

I’ll see you @ the library.

Why Join a Book Club?
If you are an avid reader anyway, you may wonder why you should join a book club. There are several reasons to join a book club, and one of them may very well apply to you. Some reasons are to meet new people and to broaden your reading selections. Even if you share some of your favorite books with friends and neighbors, you wind up having the same friends who all read the same books. By joining a book club you have a wonderful opportunity to make new friends and also to try out some titles you might not have chosen on your own.

Although reading normally is considered something you do by yourself, there are some books that just need to be shared or discussed with other people. Sometimes plot lines and themes are extensive, possibly confusing, and controversial. It can be enlightening to enter into a discussion with new people, and to discover new points of view.

So read, meet new people, socialize, share ideas!

In addition, if you are lonely or afraid of speaking or interacting with other people, a book club is a great place to start. We have a friendly staff member who facilitate our book clubs and we do our best to foster an atmosphere where everyone will feel comfortable. It is also a great reason to get out and do something different without spending any money!

“If you don’t have time to read, you don’t have time to write.”

“My son placed that brand new driver’s license in his wallet alongside his library card, and it occurred to me that these two documents have much in common. Both support America’s free and independent way of life. The driver’s license allows my son, and all of our sons and daughters, the individual freedom of personal mobility. The library card gives him, and all of our sons and daughters, the freedom of thought and speech so essential for members of a democratic society.”

Absentee Ballots - You may receive an application for an absentee ballot from our office for any election. Anyone, regardless of age, can be placed on our permanent absentee application list. This means that an application for an absentee ballot will automatically be sent to you for each election.

We cannot send out ballots without having received an application. If you are already on the permanent list, you do not have to fill out a form to be on it again. You fill out the application with the reason that you need an absentee ballot, and return it to us for the ballot; or, you can decide to vote in person and just not return the application. You are not under any obligation to vote absentee just because you received an application.

Passport Information
New U.S. Birth Certificate Requirement
As of April 1, 2011, the U.S. Department of State now requires the full names of the applicant’s parent(s) to be listed on all certified birth certificates to be considered as primary evidence of U.S. citizenship for all passport applicants, regardless of age. Certified birth certificates missing this information will not be acceptable as evidence of citizenship. This will not affect applications already in-process that have been submitted or accepted before the effective date.

EVERYTHING YOU ALWAYS WANTED TO KNOW ABOUT PASSPORTS

Hours of acceptance - 8:30 am - 3:30 pm, Monday through Friday when the Township is open. No appointment is necessary.

Due to the August 7 Primary Election preparation, our office will not be processing passports as follows from Thursday, July 5 through Friday, August 10. Normal processing time will resume on Monday, August 13.

You must have with you:
- Passport pictures (the Clerk’s Office now takes passport pictures for $10 per person)
- Certified birth certificate with a seal
- Naturalization papers (if applicable)
- Picture identification such as a driver’s license
- COMPLETED Application (Unsigned)

If you are unable to bring a completed application with you, please allow yourself ample time to do so on-site to in order to have the process completed by 3:30 pm.

It takes about four to six (4-6) weeks to get your passport, unless you choose to “expedite” the process, in which case you may receive your passport in two to three (2-3) weeks. A passport costs $135 for an adult and $105 for a child under 16 years old. The fee to “expedite” your passport is an additional $60 each. Your passport will expire in ten (10) years for an adult, and five (5) years for a child. If you wish to obtain a passport for a child, you may want to call our office as there are special rules for obtaining a passport for a minor.

For more information about applying for a passport, U.S. citizens may visit www.travel.state.gov/passport or call the Shelby Township Clerk’s Office at 586-731-5102, or the National Passport Information Center toll free at 1-877-4USA-PPT or TDD/TYY: 1-888-874-7793. Foreign nationals should contact their respective governments to obtain passports.
Grilling Safety
There’s nothing like outdoor grilling. It’s one of the most popular ways to cook food. But, a grill placed too close to anything that can burn is a fire hazard. They can be very hot, causing burn injuries. Follow these simple tips and you will be on the way to safe grilling.

SAFETY TIPS
• Propane and charcoal BBQ grills should only be used outdoors.
• The grill should be placed well away from the home, deck railings and out from under eaves and overhanging branches.
• Keep children and pets at least three feet away from the grill area.
• Keep your grill clean by removing grease or fat buildup from the grills and in trays below the grill.
• Never leave your grill unattended.

CHARCOAL GRILLS
• There are several ways to get charcoal ready to use. Charcoal chimney starters allow you to start charcoal using newspaper as a fuel.
• If you use a starter fluid, use only charcoal starter fluid. Never add charcoal fluid or any other flammable liquids to the fire.
• Keep charcoal fluid out of the reach of children and away from heat sources.
• There are also electric charcoal starters, which do not use fire. Be sure to use an extension cord for outdoor use.
• When you are finished grilling, let the coals completely cool before disposing in a metal container.

PROPANE GRILLS
Check the gas tank hose for leaks before using it for the first time each year. Apply a light soap and water solution to the hose. A propane leak will release bubbles. If your grill has a gas leak, by smell or the soapy bubble test, and there is no flame, turn off the gas tank and grill. If the leak stops, get the grill serviced by a professional before using it again. If the leak does not stop, call the fire department. If you smell gas while cooking, immediately get away from the grill and call the fire department. Do not move the grill.

FACTS
• July is the peak month for grill fires.
• More than half of home grill structure fires begin on either a courtyard terrace or patio, or an exterior balcony or open porch.
• Roughly half of the injuries involving grills are thermal burns.

Hotel & Motel Safety
Vacations and business travel make hotels and motels our home away from home. It is just as important to be prepared and know what you would do in a hotel/motel emergency as it is in your own home.

BE SAFE WHEN TRAVELING!
• Choose a hotel/motel that is protected by both smoke alarms and a fire sprinkler system.
• When you check in, ask the front desk what the fire alarm sounds like.
• When you enter your room, review the escape plan posted in your room.
• Take the time to find the exits and count the number of doors between your room and the exit. Make sure the exits are unlocked. If they are locked, report it to management right away.
• Keep your room key by your bed and take it with you if there is a fire.
• If the alarm sounds, leave right away, closing all doors behind you. Use the stairs — never use elevators during a fire.
• If you must escape through smoke, get low and go under the smoke to your exit.

If You Can’t Escape...
• SHUT off fans and air conditioners.
• STUFF wet towels in the crack around the doors.
• CALL the fire department and let them know your location.
• WAIT at the window and signal with a flashlight or light colored cloth.

Fireworks Safety
Fireworks during the Fourth of July are as American as apple-pie, but did you know that more fires are reported on that day than on any other day of the year in the United States? Nearly half of these fires are caused by fireworks. The good news is you can enjoy your holiday and the fireworks, with just a few simple safety tips:

PROCEED WITH CAUTION!
Leave fireworks to the professionals. Do not use consumer fireworks. The safest way to enjoy fireworks is to attend a public display conducted by trained professionals. After the firework display, children should never pick up fireworks that may be left over; they may still be active.

CONSUMER FIREWORKS include sparklers and firecrackers. The tip of a sparkler burns at a temperature of more than 1,200 degrees Fahrenheit, which is hot enough to cause third-degree burns.

FACTS
Each July Fourth, thousands of people, most often children and teens, are injured while using consumer fireworks. The risk of fireworks injury is more than twice as high for children ages 10-14 as for the general population.

"PEAK HOUR" DEMAND
Did you know that the majority of the rate charged by the Detroit Water and Sewerage Department (DWSD) to their customers like Shelby Township is driven by water usage during peak hours and max days? Like most utilities, DWSD’s costs increase during peak periods of usage. Traditionally, these periods have been before people go to work in the morning and when they return home in the evening.

Coincidentally, during the warmer months, these periods are primary lawn sprinkling times. Asking people to water their lawns during non-peak periods from 12:00 midnight to 5:00 am helps to reduce Detroit’s capital investment and energy costs, which in turn impacts the rate charged to the Township. As part of Shelby Township’s contract with the City of Detroit, water used between the hours of 12:00 midnight and 5:00 am is not factored into the calculation of peak demands. Therefore, if the majority of lawn irrigation is shifted to this period, the Township can minimize future rate increases based on peak usage.

Tips for a Healthy Lawn
• Many experts believe that the best time of the day to water your lawn is at 3:00 or 4:00 am for the following reasons:
  1. The water will have a chance to sufficiently soak into the topsoil.
  2. Whatever water remains will be evaporated when the sun comes up eliminating the chance of creating fungi.
• It is also recommended that watering for longer periods, less frequently, will result in a stronger root system for your lawn.
• An inch of water twice a week, whether from rain or sprinklers is all that is required to produce a healthy lawn in good soil conditions.
• Get the most from your sprinklers and avoid costly leaks by inspecting and maintaining your system on a regular basis.
• Adjust your system to avoid puddling and runoff.

We encourage everyone to use as much water as they may require, but please do it responsibly. Working together and shifting peak usage to between the hours of 12:00 midnight and 5:00 am, we can have a positive impact on future rate increases, based on peak usage, from the City of Detroit without incurring any costly infrastructure improvements.

WATER BILLS
Water bills are mailed quarterly and may be paid by mail, at the DPW Office or at the Treasurer’s Office at 52700 Van Dyke. Twenty-four hour drop boxes are available in front of both the DPW building and the municipal building. Please do not put cash into the drop boxes.

For the convenience of our customers, we have three ways to pay your water and sewer bills:

1. Cash or check made payable to “Shelby Township DPW”. Please include your payment stub and/or account number with your payment, so that credit is given to the correct account.
2. Automatic bill payment, where customers authorize the DPW to have their payment electronically withdrawn from their checking or savings account.
3. Credit Card payments may be made by phone at 800-272-9829 or online at www.officialpayments.com. A convenience fee of $6.50 is paid to Official Payments for this service. You will be asked for Shelby Township’s jurisdiction code which is 7006.
4. Unfortunately, at this time, we are unable to take credit or debit card payments.

Please note that regardless of which method of payment you use, bills are not considered paid until the payment reaches the DPW. Please consider this when making on-line payments and make them in advance of the due date.

Building Department Bulletin

Now is the time that homeowners begin those projects that they put on hold for better weather. When beginning your projects, please consider the following:

1) Almost all replacements and additions of mechanical, electrical, plumbing, and structural items require a permit.
2) Permits allow the inspector to verify and approve the standard set by the code commission.
3) The inspection is your safeguard verifying that a qualified inspector, concerned with meeting the requirements of health and safety standards, has viewed your project.
4) A permit and inspection also helps to prevent the need for costly repairs caused by poor labor or improperly installed parts.

Floodplain Information

Information on whether your property is in the 100-year floodplain poses a flooding risk. Information on whether your property is in the 100-year floodplain can be obtained by coming into the Charter Township of Shelby Building Department and having a Building Inspector assist you with floodplain maps. The township keeps records of elevation certificates for public view. Maps can also be reviewed online at www.fema.gov or by visiting the Building Department portion of the township website at www.shelbytwp.org to access the link. Contact the Building Department at (586) 731-5969 for further assistance.

Flood Safety

The following common sense guidelines can help you from the dangers of flooding:

- Do not drive through a flooded area. More people drown in cars than anywhere else. Do not drive around barriers.
- Do not walk through flowing water. Currents can be deceptive. Six inches of water can knock you off your feet.
- Stay away from power lines and electrical wires. If your house is about to be flooded, turn off the power at the service box. Electrical current can travel through water. Electrocutation is the 2nd leading cause of death during floods.
- Be alert to gas leaks. Turn off the gas to your house before it floods. If you smell gas, please report it to a Township official or your gas company. Do not use candles, lanterns or open flames if you smell gas or are unsure if your gas has been shut off.
- Keep children away from the flood waters, ditches, culverts and storm drains. Flood waters can carry unimaginable items that have dislodged themselves. Culverts may suck smaller people into them rendering them helpless.

Floodplain Information

- Clean everything that has been wet. Flood water will be contaminated with sewage and other chemicals which pose severe health threats.
- Look out for animals, especially snakes. Small animals that have been flooded out of their home may seek shelter in yours.
- Do not use gas engines, such as generators, or charcoal fires indoors during power outages. Carbon monoxide exhaust can pose serious health hazards.

Property Protection Measures

If your property is susceptible to flooding, there are many flood damage reduction measures you can employ.

- Watertight seals can be applied to brick and block walls to protect against low-level flooding.
- Utilities such as heating and air conditioning systems, water heaters and other major appliances can be elevated to higher floors in the structure or on raised platforms.
- Temporary measures such as moving furniture and other valuables to higher floors or sandbagging exterior openings will also help.
- Elevating or relocating the entire structure may also be a feasible option.

Floodplain Permit Requirements

All development within the 100-year floodplain (not just construction of buildings, but filling, excavation, fences, etc.) is required to obtain a permit from the Shelby Township Building Department. Other state and local permits may be applicable too. Applications must be made prior to doing any work in a floodplain area. Please contact the Building Department to receive all the information you will need in order to properly develop in the floodplain at (586) 731-5969. You may report any unlawful development activities to the above number as well.

Substantial Improvement/Damage

For buildings within regulated floodplains, the National Flood Insurance Program requires that if the cost of improvements to a building or the cost to repair damages (from any cause) exceeds 50% of the market value of the building (excluding land value), the entire building must be brought up to current floodplain management standards. Building improvement projects include exterior and interior remodeling, rehabilitation, additions and repair and reconstruction projects. Please contact the Shelby Township Building Department at (586) 731-5969 for further information.
FLOOD INSURANCE
If you do not have flood insurance, talk to your insurance agent. Most homeowner’s insurance policies do not cover damage from floods. Flood insurance is only available to participating communities in the National Flood Insurance Program (NFIP), such as Shelby Township. Our commitment to floodplain management helps to minimize flood hazards and enables us to be a part of the NFIP. Additionally, because Shelby Township participates in the Federal Emergency Management Agency’s Community Rating System program, flood insurance premiums are discounted.

Be sure to check your policy to ensure you have adequate coverage. Usually these policies cover the building structure, but not the contents. Contents coverage can also be obtained by asking. There is a 30-day waiting period before flood insurance coverage becomes effective. Plan ahead; do not wait until a flood is predicted before purchasing flood insurance.

If you are building within a floodplain, the purchase of flood insurance is mandatory if using a federally regulated/insured bank for a loan.

NATURAL & BENEFICIAL FUNCTIONS
Floodplains play a valuable role in providing natural and beneficial functions to the area around, and including, Shelby Township. Floodplains that are relatively undisturbed provide a wide range of benefits to both human and natural systems. These benefits provide aesthetic pleasure as well as function to provide active processes such as filtering nutrients. Significant areas in Shelby Township’s River Bends and Holland Ponds Parks are located within floodplain associated with the Clinton River. Both enhance waterfowl, fish and other wildlife habitats and provide feeding/breeding grounds. And lastly, such floodplain areas provide natural erosion control and open space so further flooding damage does not occur.

DRAINAGE SYSTEM MAINTENANCE
As simple as it may sound, simply keeping smaller ditches and streams free of debris can dramatically improve the run-off capacity of low-lying areas, as well as greatly reduce the occurrence blockage that significantly contributes to flooding. It is illegal to dump materials into a required waterway and violators may be fined. If you see someone in the act of dumping in one of our watercourses, please report it to the Shelby Township Building Department at (586) 731-5969 or the Macomb County Public Works Offices at (586) 469-5327.

Shelby Gardeners Club News

What a great year Shelby Gardeners Club members have been having. Our speaker programs were very successful. We all increased our gardening knowledge and are ready to put it into practice this planting season. Members were busy making beautiful nosegays for the Daddy Daughter Dance, fun door decorations for the residents at Regency Manor Nursing Center (formerly known as Wil-Mar Nursing Center), and our fresh flower arrangement show was very successful. Our trips to the Dow Gardens in Midland to see all the spring flowers was fun. A must see garden if you are in the area. Our visit to Foxfire Farms was also very enjoyable.

Heritage Gardens
Our plantings at Heritage Gardens and Memorial Hill turned out GREAT and will continue to bloom throughout the summer and into the fall. Members adopt an area of the gardens of which they maintain throughout the summer and into the fall. We hope the residents will take time to visit the Heritage Gardens and enjoy its beauty.

Meetings
The Shelby Gardeners Club meets at 10:00 am the second Thursday of each month at the Burgess-Shadbush Nature Center (4101 River Bends Drive, off Ryan Road between 22 Mile and Auburn Roads). For information call Ann at 586-731-9367.

We are a non-profit club and our purpose is to promote the interest and knowledge of its members and the community in gardening, ecology, horticulture and flower arranging. We will resume our speakers program in September; the public is welcome at no fee. Programs start at 1:00 pm. Watch for additional information in our local newspapers and Shelby Cable.

Shelby Township Fine Art Society
Do you enjoy painting or drawing? The Shelby Township Fine Art Society offers an open invitation to all budding and experienced artists. If you live in Shelby Township or its surrounding areas, come join us at an upcoming meeting. The Society meets on the second Wednesday of each month from September through June. Meetings are held from 7:00 to 9:30 pm in the Card Room at the Shelby Community Center. We provide artist demonstrators, teaching workshops, and the opportunity for our members to display and sell their two-dimensional artwork.

Informal general meetings include a short time set aside to provide updates and information about current and future activities. Following a short break for refreshments, a seasoned artist gives a demonstration of watercolor, oil, or acrylic painting, pastel, color pencil, or drawing for approximately 1½ hours. At times a speaker will provide information that is of interest to our members. Our teaching workshops are usually held in the fall and spring at the Burgess-Shadbush Nature Center.

Member Work Exhibitions Include:
• Shadbush Nature Center – September
• Shelby Township Library – November/December
• Shelby Township Municipal Building – April
• Shelby Township Art Fair – August

**BEAUTIFICATION NEWS**

Does your yard or that of a neighbor have that extra WOW factor in landscaping and flowers? Consider nominating your place or another for our annual Beautification Awards. Nominations can be made through the Clerk’s Office through June 29, 2012. You will then be informed of the visits of the Beautification Committee, usually in mid July, with filming by Stacey Sansoterra of Shelby TV in August. A brief ceremony honoring the winners will be held at a Board Meeting in the Fall.

Shelby had another successful Clean Up Day this Spring. Over 64 groups, more than 680 volunteers cleaned our many miles of roadways on April 28. The weather cooperated and though it was cold, many satisfied volunteers returned to the Senior Center for pizza, cold drinks and ‘the weirdest thing found’ contest. The township looked noticeably cleaner with the many orange bags, supplied by Macomb County Road Commission, lining the sides of our roads.

The BC continues to work with the Township to replace or renovate our “Welcome to Shelby” signs. We hope to have 3 new aluminum, lit signs in place in 2012. Our work to beautify Schoenherr and Mound Roads continues. Also, look for our colorful hanging baskets, now at each of the three entrances to our municipal grounds.
