October 18, 2018

Shelby Township
52700 Van Dyke
Shelby Twp., MI 48316

Shelby Twp. Board of Trustees, Fire Chief J. Swinkowski, and members of the Shelby Township Fire Department,

Kodiak Emergency Vehicles is pleased to have the opportunity to present this proposal to you. We are honored to have another opportunity to present you with a Braun ambulance to support your needs and community. Please keep in mind the following when comparing your Braun ambulances to other manufacturers:

- Braun offers a standard **Lifetime** Warranty on the module/structure (*including the interior aluminum cabinets*) that is **Transferable** if sold or traded-in. This Lifetime Warranty would also continue if you decided to **remount** your vehicle at Braun or with an authorized dealer. (*others claim to offer a “lifetime” warranty but then define “lifetime” as well as not allow it to be transferred*)
- A Braun Ambulance is built with Solid Body construction. (*heavy duty, light weight, fully welded, no extrusions*)
- The Braun ambulance quoted to you is constructed with **NO wood**, in the structure as well as the interior cabinets and floor.
- MasterTech IV peer to peer multiplex electrical system with a 7 year warranty
- Vital Max Lighting
- SealTite Doors
- Superior thermal and acoustic insulation. Spray in foam on the entire interior body, doors and undercoating as opposed to plank insulation
- ANTI CORROSION PACKAGE
- The Braun manufacturing and remount facility is located in Van Wert, OH

We take great pride in knowing we are proposing to you the best ambulance in the industry to not only serve you and your community, but our friends and family in the community as well.

Thank you again for this opportunity,

Ahren J. Taszreak
Kodiak Emergency Vehicles - Vice President of Sales and Operations
