**Project Address:** \_\_\_\_\_

The International Fuel Gas Code, Section 402.1 & 402.2, requires the gas meter and piping to be sized for the full appliance load. To insure compliance, this worksheet shall be completed prior to the issuance of a mechanical permit for the following types of installations:

## Tank-less Water Heaters, Generators and Pool Heaters

Identify all gas fueled appliances in the building and complete the information below:

<b>APPLIANCE:</b>	<b>BTU RATING:</b>	<b>N/A</b>
Tankless water heater		
Water heater		
Furnace		
Dryer		
Stove		
Oven		
Gas fireplace		
Swimming pool heater		
Other		
Generator cubic feet or KW rating		
<b>TOTAL:</b>		

Cubic foot capacity of gas meter: \_\_\_\_\_

If the total exceeds the capacity of the current gas meter, I am aware that I will have to contact my natural gas provider to have an appropriately sized meter installed. This will be done before the final inspection.
